## GLOBAL JET'S MANAGEMENT FLEET ENTERING A 2020 PILATUS PC24 AVAILABLE FOR CHARTER

Thanks to its world renowned and trusted brand for more than two decades, Global Jet is pleased to introduce the addition of a 2020 Pilatus PC24 to our fleet with a great Charter availability.

This private jet has a refined & bright interior including a very spacious cabin for the utmost comfort of the customers. This aircraft is very versatile as it has a cabin size of a medium-light jet with the performances and efficiency of a light jet.

The cabin can welcome up to six passengers and offers a large baggage capacity of 2.55m<sup>3</sup>. Another advantage of this gorgeous aircraft is its spacious and modern forward lavatory.

Cockpit wise, the Pilatus PC24 is equipped with the most intuitive and user-friendly cockpit. The Advanced Cockpit Environment (ACE) sets the standard for technological simplicity. The Pilatus ACE™ also includes a Synthetic Vision System, an Autothrottle, a Graphical Flight Planning, a Traffic Collision Avoidance System (TCAS II), and a Localiser Performance with Vertical (LPV) guidance capability.

One of the most important highlights, is the Quiet Powder Mode™ which provides quiet, economical energy to power electrical systems including heating and air conditioning. Thanks to this unique strength, we can say that the Pilatus PC24 is extremely flexible. This feature is a worldwide premiere.

Thanks to the excellent performances of the Pilatus PC24, customers on board will be able to access a wider selection of airports having short runway which is another advantage since most of these airports are beyond reach for many other types of jets.

The aircraft is based in Andorra-La Seu d'Urgell, where it is very complex to fly since you need specific authorizations. In fact, this airport is only accessible with this Pilatus PC24 thanks to Global Jet's obtention of a specific approval for this aircraft to perform private and

# GLOBAL JET

commercial flights. In addition, the aircraft has its own hangar which has been completely refurbished in 2022.

This Pilatus PC24 is the ideal type of aircraft for your trips in Europe and is available any time any place for your charter needs.

You can book this stunning Pilatus PC24 through our website - [PILATUS PC24 | global-jet \(globaljet.aero\)](https://global-jet.globaljet.aero)
