

GLOBAL JET

GLOBAL JET'S CHARTER FLEET EXPANDING WITH THE ADDITION OF A PHENOM 300

Considered as one of the main Charter and Management companies in the world, Global Jet continues its ascent with the entry of an exceptional Phenom 300 in its Charter fleet. Having a base at Bordeaux airport, the aircraft is designed to welcome 7 passengers in the utmost comfort.

Equipped with the latest avionics, this private jet is divided in two cabin zones; offering customers a maximum level of luxury and relaxation. The Phenom 300 is an upgrade of the Phenom 100 which provides more space and comfort for the travellers (increased leg, elbow, and head space). The forward cabin proposes a double club-seating configuration followed by two seats facing the cockpit. The luggage compartment has also increased its volume and has a capacity of 2.37m³.

This Phenom 300 is capable of landing on shorter runways which makes it one of the most flexible and attractive private jets in its category.

Furthermore, the Phenom 300 is well known for its good range and speed for a light jet which is ideal for short or medium-haul flights. It is considered as one of most successful and best-selling light jet of its category since several years.
