

GLOBAL JET

GLOBAL JET UNVEILS ITS LATEST ADDITION TO ITS CHARTER FLEET - A BOMBARDIER GLOBAL 7500

Global Jet, a leading company in private aviation, proudly announces the newest aircraft in its fleet, the Bombardier Global 7500. Setting new standards in the world of business aviation, this exceptional aircraft stands out as the largest, longest, and fastest in its class, offering an unparalleled experience for discerning passengers.

The Bombardier Global 7500 boasts a spacious interior with four thoroughly designed cabin zones, ensuring a comfortable journey for up to 13 passengers. This innovative configuration allows for distinct areas dedicated to relaxation, work, and entertainment, making every flight a unique and personalized experience. The forward cabin offers a club suite with four ergonomic executive seats followed by a four-seat meeting and dining area opposite a club two. The mid cabin offers an entertainment suite with a three-place divan opposite a large TV screen. The afterward cabin is arranged in a master suite bedroom where guests will be able to relax and enjoy a proper bed.

The Bombardier Global 7500, having an impressive range of 7700 nautical miles and a speed of Mach 0.925, is an ideal balance between speed, range, a comfortable ride, and exceptional short and long-field performance. Moreover, Passengers can enjoy a direct flight from Geneva to Bali and experience a rejuvenated journey, all thanks to Bombardier's Pūr Air system. This advanced air purification system incorporates a sophisticated HEPA filter, ensuring the air is purified and refreshed throughout the flight.

Travelers can look forward to experiencing not only a reduced cabin altitude but also an exceptionally quiet cabin, measuring at just 50dB. The aircraft is equipped with the latest technology engines – GE Passport, which will increase efficiency, reduce noise level, deliver more reliability, lower emissions, and reduce maintenance costs.

GLOBALJET

The aircraft's state-of-the-art technology is further exemplified by the Bombardier Vision flight deck, equipped with advanced fly-by-wire technology, ensuring the highest levels of safety and precision in every flight. To cater to the needs of today's connected passenger, the Global 7500 comes equipped with upgraded features, including Ka-Band WIFI, Bluetooth connectivity, USB-C and HDMI ports, ensuring that customers can stay connected and entertained throughout their journey.

What truly sets this aircraft apart is the ease of control and personalization it offers to passengers. With two G7500 applications, travelers can effortlessly manage everything from lighting and temperature to music selection, flat-screen TV settings, and even window shades, all at their fingertips.

Global Jet's commitment to providing top-notch service and luxurious travel experiences is now elevated to new heights with the introduction of the Bombardier Global 7500. This aircraft is set to revolutionize the way travelers perceive and enjoy private aviation.
