GLOBAL JET – MEBAAs 2024

A trusted brand for 24 years, Global Jet manages more than 69 aircraft for private and commercial operation for HNWIs and private corporations around the globe. In addition to being one of the largest operators worldwide, they have one of the most diverse fleets, with over 35 different aircraft types, including 35 available for charter.

Today, Global Jet has a presence in Geneva, Luxembourg, Monaco, Paris, Madrid, Vienna, Isle of Man, Aruba, Asia, and Dubai. To address the rising demand in the Middle East, the company expanded its footprint by opening a Dubai office just over a year ago. This strategic move has already proven successful, highlighted by the addition of a unique Airbus ACJ320 to its charter fleet in December 2023. Based in the region, this aircraft is one of the few available in the charter market and stands out as the only private jet capable of accommodating up to 31 passengers for commercial flights — an unparalleled achievement in aviation. This aircraft has already proven to be highly successful and is in constant demand. Since the start of its operations, it has been exceptionally busy, flying nonstop between the Middle East, Europe, and destinations around the world, demonstrating its unrivalled appeal and utility in the charter market.

Global Jet Airbus ACJ320

Further elevating its position in the industry, Global Jet has introduced one of the rare VVIP-configured Boeing 747-800 to its Middle Eastern fleet. This significant addition reinforces the company's reputation for managing some of the world's most prestigious aircraft and sets a higher standard for excellence in private jet management. Trusting Global Jet with the management of such an aircraft further highlights the company's extensive expertise in the highly exclusive niche of operators managing wide-body jets.

To better serve the growing Middle Eastern market, Global Jet has also expanded its Charter Sales team in Dubai, with a new member joining forces with Thomas David to drive business development efforts in the region. The Dubai office is fully equipped to offer charter services, aircraft management, as well as aircraft sales and acquisitions. Moreover, the company looks forward to sharing additional developments soon as it continues to innovate and expand to meet regional demands.

On a larger scale, Global Jet is proud to announce that its Aircraft Management Department is experiencing unprecedented growth, having signed more than 15 new contracts since spring 2024. The latest additions to the fleet include two Gulfstream G200s, several Gulfstream 500/600/650ERs, a Falcon 900LX, a Falcon 7X, and a Global Express XRS. This remarkable expansion reflects the company's ongoing commitment to providing top-tier service in the aviation industry.

Looking ahead, there is an exciting lineup of aircraft set to join the fleet from Q4 2024 to Q1 2025, including a Falcon 2000LXS, a Global 6000, a Global 7500, another Gulfstream 650ER, a Praetor 500, and the addition of three Gulfstream G700s in Q1 2025.

In its Aircraft Sales Department, Global Jet has successfully executed numerous sales and acquisition transactions, including an ACJ318, an ACJ319, a Global 7500, a Falcon 7X, and a Gulfstream 650ER. This momentum remains strong as the company nears the completion of several additional deals, bringing the total to approximately 20 transactions so far this year. These results underscore the robust demand for both new and pre-owned aircraft.

With a 24-year legacy of responsible business and a well-known reputation regarding safety, security quality and service, its dedicated teams are taking all necessary actions to guarantee the utmost safety in all flight operations.

In conclusion, they are excited to announce their participation in the upcoming MEBA Show, where they will be exhibiting at Booth #813. Don't miss the opportunity to meet their team and discover firsthand what they have to offer.
