GLOBAL JET WELCOMES THE EXQUISITE FALCON 6X TO ITS CHARTER FLEET

Global Jet continues to expand its world-class charter fleet with the addition of the magnificent Dassault Falcon 6X, one of the most technologically advanced and spacious business jets in its class.

Now available for charter and based in Europe, this state-of-the-art aircraft arrives at a time of rising demand for long-range private travel, offering clients an exceptional blend of performance, comfort, and access.

The Falcon 6X features the tallest and widest cabin of any purpose-built business jet, accommodating up to 14 passengers in a light-filled, serene environment designed for productivity and relaxation. Passengers will enjoy an ultra-quiet cabin, advanced air filtration, and three integrated iPads for seamless control of lighting, entertainment, and comfort settings. With a range of 5,500 nautical miles and a cruising speed of Mach 0.90, the Falcon 6X is ideal for long-haul journeys such as Paris to Singapore, New York to Geneva, or Dubai to Tokyo—without compromising on speed or style. Its Ka-band high-speed Wi-Fi keeps travellers connected across continents, while the fully equipped galley ensures a refined onboard dining experience.

Built with next-generation flight control systems and advanced safety technologies, the Falcon 6X also excels in short-field performance, enabling access to airports that are typically off-limits to larger aircraft. This gives travellers greater flexibility and proximity to their final destinations, whether it's a business capital or a secluded island retreat.

Over the past year, Global Jet has continued its impressive growth, adding more than 17 aircraft to its managed fleet. The charter and brokerage division has also expanded significantly with nine new additions, including a Falcon 7X, G650ER, and Falcon 900LX—all equipped with Ka-band connectivity for a seamless in-flight experience.

With this latest addition, Global Jet reaffirms its commitment to offering discerning clients the very best in private aviation, combining global reach, tailored service, and an unwavering dedication to safety and luxury.
