Global Jet is proud to announce the introduction of an Airbus ACJ319 Neo, registration LX-NYX, based in Dubai, to its charter fleet. This exceptional aircraft represents one of the most prestigious additions to Global Jet's portfolio this year, further strengthening the company's position at the forefront of ultra-long-range VIP aviation.

Delivered directly from the production line in July 2022, the Airbus ACJ319 Neo embodies the very latest in aviation technology, performance, and cabin sophistication. With an impressive range of up to 6,000 nautical miles, the aircraft enables seamless intercontinental travel, connecting major global destinations nonstop while offering unparalleled levels of comfort, safety, and efficiency.

Designed to meet the expectations of the world's most discerning travellers, the cabin welcomes up to 19 passengers and features refined sleeping accommodations for 12 single beds and two double beds, ensuring optimal rest on long-haul missions. The thoughtfully curated interior layout includes a forward galley and crew area, a VIP lavatory, a spacious main lounge, an aft cabin configurable as a private office, and a master bedroom complete with an en-suite bathroom. Every detail reflects understated elegance, premium craftsmanship, and a commitment to absolute comfort.

Onboard experience is further elevated by cutting-edge connectivity and entertainment. High-speed Ka-Band internet allows passengers to stream content on platforms such as Netflix and Apple TV, while iPads, Bose headsets, and multiple USB and HDMI ports ensure effortless integration of personal devices throughout the flight.

"The addition of the ACJ319 Neo | LX-NYX, based in Dubai, marks a defining moment for our charter fleet in the Middle East this year," said Global Jet.
