GLOBAL JET UNVEILS ITS LATEST CHARTER ADDITION

Dassault Falcon 7X

September 2026

Global Jet Introduces a Refined European-Based Dassault Falcon 7X to Its Charter Fleet

Global Jet is delighted to announce the latest addition to its European-based charter fleet: a refined Dassault Falcon 7X, combining exceptional range, performance and comfort for discerning business and leisure travellers.

With an impressive range of up to 5,950 nautical miles, the Falcon 7X offers the flexibility to connect major cities across the globe without the need for a stopover. Its long-range capabilities make it particularly well suited to non-stop transatlantic journeys, while its outstanding short-field performance allows passengers to access a wider selection of airports and more remote destinations.

Powered by three Pratt & Whitney Canada engines, the Falcon 7X delivers a remarkable combination of performance, efficiency and reliability. Its tri-engine configuration provides additional operational flexibility and performance, contributing to a smooth and reassuring journey for everyone onboard.

Inside, the aircraft offers an elegant and spacious cabin designed to accommodate up to 14 passengers in comfort. The thoughtfully designed three-zone layout provides distinct areas for working, relaxing and socialising, making it equally suited to productive business trips and private leisure journeys. The cabin combines plush cream-coloured leather seating with rich, dark wood detailing, creating a warm and timeless atmosphere. Advanced avionics further enhance the experience, ensuring a smooth, seamless and comfortable journey from departure to arrival.

The onboard experience is complemented by a selection of modern connectivity and entertainment features, including three iPads, HDMI connectivity, USB ports and US power outlets. Whether passengers wish to stay connected, catch up on work or simply unwind, the Falcon 7X provides the amenities needed for a truly enjoyable journey.

Available for charter, this exceptional Falcon 7X is ready to meet a wide range of travel requirements, from executive trips and international business travel to family holidays and special getaways.

For full specifications and further details on the Falcon 7X, visit the Global Jet website or contact the Global Jet Charter Sales team to request a personalised quotation for your next private jet journey.
